Pursuant to Article 11 of the Associations Act (Official Gazette 88/01 and 11/02) and Article 5 of the Technical Culture Act (Official Gazette 76/93, 11/99, 38/09), the Founding Assembly of the Energy Platform Living Lab Association held on 13 March 2014 in Zagreb, adopted

THE STATUTE

of

THE ENERGY PLATFORM LIVING LAB ASSOCIATION

I. GENERAL PROVISIONS

Subject Matter

This Statute regulates the founding, objectives and activities, name and registered office, area of activities, internal organization, representation, rights and obligations of members, assets and financial operations, public nature of activities, the Statute and other internal rules and regulations, and other matters important for the activities and operation of the Energy Platform Living Lab Association (in Croatian: *Energy Platform Living Lab - Udruga za otvorene inovacije u energetici*).

Name of the Association

Article 1

The Energy Platform Living Lab Association is an independent, voluntary, professional and scientific association focused at national and international level on the methods of applying open innovation in the area of energy, established for the specific purpose of meeting needs in the general interest, not having and industrial or commercial character (hereinafter "the Association")

The abbreviated name of the Association is: *EPLL*.

Legal Status and Registered Office

Article 2

The Association has the nature of a non-profit legal entity and is entered in the Register of Associations of the Republic of Croatia kept by the City Office for General Administration of the City of Zagreb. The Association is founded for the purpose of accomplishing common objectives and activities set out in this Statute, and for the specific purpose of meeting needs in the general interest, not having and industrial or commercial character.

The registered office of the Association is in Zagreb. Decision on change of address of the registered office shall be made by the Steering Committee.

Area of Activities

Article 3

The Association acts in the entire territory of the Republic of Croatia.

The Association collaborates with domestic and foreign persons with which it is linked through common objectives and activities not only in the territory of the Republic of Croatia but also beyond its borders.

The Association may join unions or other forms of alliances in order to accomplish its objectives and activities. Decision on any such joining shall be made by the Steering Committee.

Seal of the Association

Article 4

The seal of the Association is rectangular in shape and 70x25 mm in size and it contains a written text: Energy Platform Living Lab Udruga za otvorene inovacije u energetici, Zagreb.

Legal Representation

Article 5

The Association is represented by the President, the Vice-president and the Executive Director. The Steering Committee may empower other persons to represent the Association by special power-of-attorney. The President or the Steering Committee authorizes persons to act on behalf of the Association.

Public Nature of Activities

Article 6

The activities of the Association are public. The public nature of activities shall be ensured by informing the members and the public about the activities, results of the activities, and decisions made by the governing bodies of the Association through the media, written reports, brochures, at professional gatherings, on the website of the Association or otherwise as appropriate.

The public nature of activities applies also to data and projects of the Association. The data on individual projects through which the process of research and development (R&D) and innovations in the area of energy is carried out may exceptionally be declared confidential by decision of the Steering Committee, if so demanded by participants of a particular project, considering the nature of the project, sources of financing and legal relations between project participants. The decision on the confidentiality of a project shall not be in conflict with the obligations accepted by the Association at an earlier time.

II. OBJECTIVES AND ACTIVITIES

Objectives

Article 7

The Association has the following objectives:

- establishment of public-private-human partnership for the purpose of accomplishing the objectives of the Association in the area of energy, according to the public interest and general development,
- establishment of collaboration between business and scientific communities, governmental organizations and local communities and citizens in R&D and innovations in the area of energy,
